Category 5E SHIELDED Feed Thru Adapter

<b>PRODUCT OVERVIEW</b>	-
Product Description	Cat5E Shielded Feed Thru Adapter
Product Overview	Category 5e screened keystone feed-thru couplers can be used as a second piece of connecting hardware when a cross-connection is needed for active equipment connection to the cabling, and as a consolidation point in the open office environment. Feed-thru couplers meet component, permanent link and channel requirements as defined in TIA/EIA-568-C.2 and provide a sound platform for supporting today's network technologies. These high-density feed-thru couplers are compatible with Signamax 24- and 48-port high density snap-in patch panels providing flexibility in field installation. They are also compatible with all Signamax faceplates and surface mount multimedia boxes.
Package Qty.	1
