Category 6 Feed Th u Adapter

PRODUCT OVERVIEW	-
Product Description	Category 6 Feed Th u Adapter
Product Overview	Category 6 keystone feed-thru couplers can be used as a second piece of connecting hardware when a cross-connection is needed for active equipment connection to the cabling, and as a consolidation point in the open office vironment. Feed-thru couplers meet re-quirements as defi ed in TIA/EIA-568-C.2 and provide a sound platform for supporting today's network technologies including Gigabit Ethernet. These high-density feed-thru couplers are compatible with all Signamax faceplates, surface mount multimedia boxes and Signamax 24- and 48-port high density snap-in patch panels providing flex bility in fi ld installation.
Package Qty.	1

PRODUCT FEATURES	-
Features	• Contact design provides enhanced plug-to-jack connection integrity and protects against damage caused by insertion of 4- or 6-position plugs • Applications - cross-connections, horizontal cabling consolidation points, horizontal cabling connection point in building automation cabling • Rated for at least 750 plug insertions • Compatible with T568A and T568B cabling
