**Superior UL-Rated Cables for Outdoor**  
**In-Conduit & Direct Burial Applications**

Access Control • Audio • Communications • Fire Alarm • Intercom • Video

## Versatile Protection from the Elements

Whether your application has low voltage cables running from one building to another in a wet location (direct-buried), or conduit running between locations in a single building (in-conduit), choose **Aquaseal**® Water Resistant Cables. Featuring water blocking tape and a jacket that resists sunlight and moisture, **Aquaseal** assures the integrity of your signals.

When specifying water resistant cables, there's no equal to **Aquaseal**.
